#### TECHNICAL NOTES AND DISCLAIMER

The informations provided in this document represent typical, average values which may be subject to fluctuations and do not exempt the customer from accurately verifying the compliance within its own processing cycle. It is the customer's responsibility to carry out all the necessary technical and legal tests to establish their compliance. In any case I.BLU Srl does not take any liability for the uses that purchaser as well as the end users (or other third parties) intends to make out of the material; therefore I.BLU Srl does not warrant any particular destination use for the material or any specific characteristic/quality that makes it suitable for the uses which the customer intends to do with it. The product shall only be used in compliance with the requirements of law and of technical standard UNI 10667-16, namely, it shall not be used in the production of packaging material that comes into direct contact with food, unless otherwise specifically permitted by the applicable national law and the user of the product fully complies with such legislation. The only relevant parameters to evaluate the product's conformity are those stated above, in the present technical chart. I.BLU Srl denies any responsibility for product which has been altered or modified; which has been subjected to unusual stress, to abuse, to accident, to forces or exposure beyond normal use or beyond the normal operational or environmental parameters, or which has been subjected to integration, combination or connection with other products, stuff and/or energies. In no event shall I.BLU Srl be liable for damages deriving from the product and/or its utilization, including but not limited to loss of profits or revenues, loss of business, damages to third parties, cost of capital, cost of substitute product or equipment.
